EGI Federation Strategy 2026–2030

TODAY
Federated Computing Infrastructure

2030 AMBITION
Europe's essential federated AI-ready compute-data continuum

integrating compute, data, AI and expertise across Europe

What's changing?

Sovereign Compute-Data Federation
- Integrate compute, data and AI-ready resources
- Support trusted, interoperable and sovereign infrastructure

Incentivised Cross-Border Access
- Enable sustainable access across countries
- Diversify funding and create incentives for providers

Sustainable Innovation Ecosystem
- Turn R&I results into lasting services
- Strengthen connected communities and impact

How EGI creates value

Power the Federation
platforms, policies, governance

→

Enable Scientific Computing
AI-ready compute-data services

→

Enable Sustained Innovation
connected communities, collaborative R&I
