EUDAT supporting cultural heritage and endorsing the SCI framework; new material from our workshops and events on the horizon

Read the **interview with the EUDAT-European Data Pilot** to discover how our services are concretely supporting cultural heritage, and don't miss out the exciting news about the **EUDAT endorsement of the Security for Collaborating Infrastructures (SCI) framework**. **The new material from our latest workshops on Array Databases and HPC services is now available for you to browse and download, but it doesn't end here: get ready to attend new events too! Save the dates for the "Ontology and semantic web for research" workshop in Lecce (tomorrow is the deadline to register!), the annual LIBER Conference in Patras, and the DI4R 2017 event in Brussels!**

**Read on to discover all!**

### [How EUDAT supports the cultural heritage datasets discovery, access, citability and re-use](#)

We interviewed Nuno Freire who is part of the EUDAT-European Data Pilot, to learn more on how EUDAT makes cultural heritage datasets promptly available in the workplaces of researchers, by supporting their discovery, access, citability and re-use. Can the use of EUDAT services also facilitate the computational processing of the cultural heritage resources? [Find it out in the full interview](#)

### [Wise e-infrastructures endorse WISE recommendations](#)

EUDAT was among the key e-infrastructures for research from Europe and the rest of the world that recently endorsed the governing principles and approach of the Security for Collaborating Infrastructures (SCI) Framework of the WISE Community. [Click here to learn more](#)

### [Workshop material is available: "Coupling HPC and Data Resources and services together"](#)

The material presented at the latest EUDAT workshop on Coupling HPC and Data Resources and services together that took place on Thursday 18 May 2017 during European HPC Summit Week in Barcelona is now available! [Click here to download material](#)

### [Working Group material is available: "Real use of Array Databases for Research Communities"](#)

The material shared at the workshop held on 17th May in Amsterdam on the "Real use of Array Databases for Research Communities" is now available. [Click here to download material](#)

### [One day left to register to the upcoming workshop on Ontology & Semantic Web for Biodiversity & Ecosystem Research](#)

From 11 to 14 July 2017, the EUDAT-LifeWatch Italy will host a workshop on "Ontology & Semantic Web for Biodiversity & Ecosystem Research", taking place in Lecce (Italy). The event will particularly revolve around the following main themes: Usages of semantic resources in Research Infrastructures; Comparison among vocabulary governances; Alignment of vocabularies and ontologies and Services for semantics. [Register to the workshop by 23 June!](#)

### [EUDAT poster at the LIBER Annual Conference 2017, 5 July - 7 July, Patras, Greece](#)

Make sure to check out the EUDAT poster displayed at the conference, explaining how EUDAT can support librarians and data managers working at research libraries, national libraries, library organisations and information centres.. [Click here to register to the event](#)

### [Save the Date: Digital Infrastructures for Research 2017 on 30 Nov - 1 Dec 2017](#)

After last year's successful edition, the Digital Infrastructures for Research event comes back in 2017, taking place on 30 November and 1st December in Brussels. Save the dates! [Learn more about DI4R 2017](#)

 EUDAT receives funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No. 654065. [Legal Notice](#) [Unsubscribe](#) [Subscribe](#)
