EUDAT Data Science, Expertise & Technology Solutions

September 2017 NEWS

**EUDAT** DIGITAL INFRASTRUCTURES FOR RESEARCH

Once again this year, EUDAT is co-organising the [Digital Infrastructures for Research \(DI4R\)](#) event together with [Data Science](#), [DI4R](#), [Data Science](#), [DI4R](#), [Data Science](#), and [DI4R](#). The event takes place in the heart of the European Union in **Brussels** (Belgium) on **20th November and 1st December 2017**, hosted at the stunning [Square in the city centre](#) and co-located with the first [DI4R Conference](#) (28-29 November 2017).

**What's new?**  
This year the conference will revolve around the theme: **"Connecting the building blocks for Open Science"** with the overarching goal of demonstrating how open science, higher education and innovation can benefit from these building blocks, and ultimately to advance integration and cooperation between initiatives.

**This is the reason why EUDAT encourages all researchers, developers and service providers to have their say in the conference by submitting an abstract for a 5-minute lightning talk, a 15 minute presentation, an interactive session (30 mins), a poster or a demo.** The call is now open and closes on 12th October 2017 [here](#).

**Registration to the conference is also open:** [more open registration by 12th October to benefit from the early bird rate!](#)

**REGISTER**

Further information on DI4R 2017 are available at [www.di4r2017.eu](#)

**The DI4R call for abstracts is open!**

**Use your voice to shape the DI4R 2017: call for abstracts is open!**  
All interested contributors are invited to submit their abstracts by 12th October 2017 covering among a different topics: the opportunity, Data Science & Skills, Impact evaluation and metrics, Security, trust and identity, The EUDAT 4 SDG building blocks and Business models, sustainability and policies. [Submit your proposal](#)

**Meet the DI4R 2017 Programme Committee:**  
The DI4R 2017 will be led by a balanced and experienced Programme Committee (PC), responsible for structuring a balanced programme based on the event objectives and targets, identifying the type of sessions that will make up the programme, defining the content of the Call for Abstracts, reviewing the abstracts submitted through the Call for Abstracts, making final decisions regarding acceptance of abstracts, defining the content of plenary sessions and the list of keynote speakers, creating the Event's schedule.
