Exclusive news from the EUDAT CDI: Per Öster appointed Project Director of EOSC-hub & CLARIN ERIC officially joining the CDI

**There are still so many new things to share before the year is over!** The EUDAT CDI Council appoints **Per Öster** (Director of Research Infrastructures at CSC - IT Center for Science) **as Project Director of the EOSC-hub project, CLARIN ERIC officially becomes a EUDAT CDI thematic provider, all EUDAT presentations given at the recent DI4R 2017 event are available and the countdown to the next [EUDAT Conference](#) "Putting the EOSC vision into practice" has started!**

**Per Öster will lead the EOSC-hub project as Project Director**

The EUDAT Collaborative Data Infrastructure (CDI) has appointed Per Öster as Project Director of the EOSC-Hub project. This agreement was made during the EUDAT CDI Council which was hosted by the IN2P3 Computing Centre, in Lyon, France, on 21 November 2017.

**CLARIN ERIC is officially a EUDAT CDI thematic provider**

On 21 November 2017, CLARIN ERIC signed the EUDAT CDI Agreement and officially joined the EUDAT CDI as a thematic provider. The new role of CLARIN is a natural continuation of their past involvement and their contribution will help the CDI to evolve as a successful collaborative platform that is interesting to both service providers and community organisations.
