EUDAT what's next?: CDI, EOSC & EDI

Let's meet at: 09:00 - 12:30, Room: Sintra | 24 Jan 2018

Session Chair: Damien Lecarpentier, CSC

You can't miss it if you are a service provider interested in joining the EUDAT CDI or a research community willing to use the EUDAT CDI services.

Objectives:

- Discuss the recent organisational development of the EUDAT Collaborative Data Infrastructure
- Understand the role of the research communities within the EUDAT Collaborative Data Infrastructure

More info on the session:

The session will summarise the recent developments of EUDAT in its effort to move from an EC project to a sustainable collaboration between partnering organisations, through the EUDAT CDI Collaboration Agreement. It will inform organisations interested to engage with the CDI about the various opportunities to do so, including how to formally join the CDI.

As the EUDAT CDI is working to establish a Research Board to ensure that the needs of the research communities are correctly captured by EUDAT future developments, the session will be the opportunity to discuss the role of such board and more largely of the research communities within the CDI.

Agenda:

09:00 - 10:30 [EUDAT CDI - Moving Forward & Next Steps](#)

11:00 - 12:30 [Research communities & the CDI](#)
