

Two days left to register to the EUDAT conference: final programme is out!

Research Data Services, Expertise & Technology Solutions

JANUARY 2018

What does the EOSC actually mean when applied to data services? How is it related to the European Data Initiative (EDI)? The upcoming EUDAT Conference will take place in less than a week and will try to shed light on this and answer the question "How to put the EOSC vision into practice?".

View the [online programme](#) and [register](#) by 18th January: the EUDAT team, our communities and all related initiatives and organisations are looking forward to meeting you in Porto (Portugal), from 22nd to 25th January 2018!

Browse the Full Conference Programme!

The conference features over 30 sessions and a wide selection of co-located events covering the latest trends in data infrastructure and data management solutions, the EOSC and EDI, user communities, policy frameworks and much more.
