
13th International Digital Curation Conference: "Beyond FAIR - from principles to practice to global join up"

Where:

Barcelona, Spain

When:

Monday, 19 February, 2018 to Thursday, 22 February, 2018

19 - 22 February 2018

13th International Digital Curation Conference: "Beyond FAIR - from principles to practice to global join up"

The conference brings together digital curation professionals and educators with data producers and consumers to consider digital curation in a multi-disciplinary context.

From 19th to 22nd February 2018, Barcelona (Spain) will host the **13th International Digital Curation Conference (IDCC) "Beyond FAIR - from principles to practice to global join up"**.

This year, the conference will focus on sharing practical lessons on the efforts made so far to curate data and pursue a digital data commons.

The programme (available at www.dcc.ac.uk/events/idcc18/programme) features an exciting line-up with three great keynotes, a raft of posters on data service development, demos and bird-of-a-feather sessions. There will also be a diverse range of parallel papers covering ethics, measuring FAIR, data reuse studies, national services and DMPs.

The conference programme is supplemented by a rich programme of workshops, which can be booked independently. Further information about the conference and workshops can be found at www.dcc.ac.uk/events/idcc18/workshops.

Register now!

To register, please go to www.dcc.ac.uk/events/idcc18/registration. The deadline for bookings is 9 February 2018.
