

**Special Session on Digital Home Networks & Ambient Intelligence  
(DHN-AmI 2018)**

**CALL FOR PAPERS & PARTICIPATION**

As part of  
The 16th International Conference on High Performance Computing & Simulation (HPCS 2018)  
<http://hpcs2018.cisedu.info/> or <http://cisedu.us/rp/hpcs18>

**July 16 – 20, 2018**  
**Orléans, France**

**Paper Submission Deadline: March 12, 2018**

**Submissions could be for full papers, short papers, poster papers, or posters**

Call for papers & participation: 5th International Symposium on BDAA 2018

The **2018 International Conference on High Performance Computing & Simulation (HPCS 2018)** will take place in Orléans, France, on 16-20 July 2018. As part of this event, the **5th International Symposium on Big Data Principles, Architectures & Applications (BDAA 2018)** will also take place in the same days, giving you the opportunity to submit your paper -full papers, short papers, poster papers or posters ([view details on call for papers & participation](#)).

**“Big Data”** continues to be an active area of significant research. The symposium is to address, explore and exchange information on the state-of-the-art and practice in the broad multidisciplinary field of Big Data Science, with the intent of providing a forum to share and exchange big data related research, technologies, experiences, and lessons for building various types large-scale data intensive and data analytics, with interoperability and coordination capabilities in a high performance and high availability setting.

Participation is extended to researchers, designers, educators and interested parties in all disciplines and specialties.

**If you would like to contribute to any of of the BDAA topics (such as big data Science, data analytics, Big Data processing, big data intelligence and many others), make sure to submit your paper by 12th March 2018 and take part to the event!**

**Full details can be found on the [HPCS2018 website](#).**
