

## D8.6: Report on Experiences Applying the Prototype with Different Community Use Cases

WP:

WP8

Publication Date:

21/03/2018

This deliverable investigates potential new technologies and develop prototypes and proof-of-concept (PoC) services based on community requirements. The following communities have described Use Cases that solve some issues using EUDAT Services, and that uses exploratory, extensions and prototype services as well as concepts developed within WP8: ENES, CLARIN, EPOS, and LTER.

Contract:

EUDAT2020 (2015-2018)
