New decade, new EUDAT website!

New decade, time to roll out the new EUDAT website design! Do take the time to see the changes for yourself here eudat.eu

The main drivers for the complete overhaul were to **improve user experience, giving easier access to more information**. We think this shows better the solutions we provide every day to research communities, researchers & data managers and providers. We've also incorporated a completely new "About" section where you can find all of the details on the [EUDAT CDI](#), its [members](#) and [governance](#).

If you want to find out how to become a member of the CDI you'll find everything you need to know in the [How to join the CDI](#) page. Last but not least, if you're interested in learning more about the projects that EUDAT supports, don't forget to look at the "[Projects](#)" page.

And there's more is to come...

Now we're enriching the descriptions of the EUDAT services, matching them with a set of brand new use cases from our communities. In late 2020 the EUDAT Digital Channel will also be launched.

EUDAT receives funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No. 654065.
