

D6.2: 1st Year Report on Status and Progress of Operations

WP:

WP6

Publication Date:

09/11/2012

The purpose of WP6 “Operations” is to make the Collaborative Data Infrastructure available for scientists and researchers by integrating and reliably operating services on top of distributed resources which are provided in a coordinated way. This 2nd WP6 deliverable presents a status update of the month 6 deliverable and reports about achievements having been made in operations during the 2nd half of the 1st project year.
