

- When:  
Monday, 15 September, 2014 to Tuesday, 16 September, 2014

## Open Finland 2014

Open Finland 2014 is to present the opportunities that open data provides for citizens and organisations, businesses, sciences, research, learning and for better decisions and smoothly running central and local government administration. The EUDAT project will be presented by Kimmo Koski, Managing Director, CSC - IT Center for Science Ltd.

The event will bring together businesses, civil society organisations, researchers, administration and decision-makers. Participants will be challenged to take up open data, explore crowdsourcing and promote openness and opportunities for applying open data. The aim of the event is to gain exposure to the opportunities provided by the use of open data, share Finnish success stories and create new open data opportunities.

Read more and have a look at the programme on the [Open Finland 2014 website](#).
