EUDAT receives funding from the European Union’s Horizon 2020 research and innovation programme under grant agreement No. 654065.
Where can you meet EUDAT?

There will be plenty of opportunities over the summer to meet the people working within EUDAT and to learn more about the services that EUDAT is offering and developing. For example, EUDAT representatives will be present at HPCS 2013 in Finland, and INCF 2013 in Stockholm. In September, EUDAT will also be involved with the pre-RDA meeting in Munich.
