

D2.3.2 Community Integration Toolkit (final)

WP:

WP2

Publication Date:

01/04/2015

With the increasing maturity and sophistication of EUDAT's services, additional communities are seeking to apply to become members of the underpinning Collaborative Data Infrastructure (CDI) as Users/ Data Providers, Service Providers or Applications/ Technology Developers. EUDAT dedicated a task focused on developing a Community Integration Toolkit (CIT), a key component in aiding these new communities to prepare themselves to participate in the infrastructure and thus grow the adoption of EUDAT's shared services model.
