

EUDAT invites key stakeholders to Rome, 3-5 February 2016. Find out why you should join us ...

EUDAT User Forum, 3-4 February 2016

Research infrastructure and community representatives, domain researchers, community managers and data managers are invited to attend the EUDAT User Forum to learn how EUDAT research data solutions (replication, preservation, publication, staging) can support users from multiple disciplines. [View the programme here](#). The User Forum starts on Wednesday 3 February 2016 @ 2pm.

The European Open Science for Research (EOSC) Workshop, 5 February 2016

Researchers, research infrastructures, and e-Infrastructures together with national and international service providers, data centre and research organisation strategists and decision makers are invited to actively participate in the discussion on how to shape the European Open Science Cloud for Research (EOSC). The discussion builds on the recent [joint statement announced by EUDAT, LIBER, OpenAIRE, EGI and GÉANT](#). [Programme and registration available here](#).

EUDAT Fundamentals Training workshop, 5 February 2016

User communities can join the event to gain an in-depth understanding of the EUDAT Collaborative Data Infrastructure (CDI), its research data services and solutions. [Programme and details are available online](#).

Venue and logistics: All the events take place at the NH Leonardo da Vinci Hotel, via dei Gracchi, Rome.

Registration: Participation to all events is free of charge but subject to on-line registration before 29 January 2016. [Read more](#)
