

Data Management Services in the Cloud - INDIGO DataCloud Event, 4 April 2017

Where:

Barcelona, Spain

When:

Tuesday, 4 April, 2017

As co-located event with the [9th RDA Plenary](#), [INDIGO DataCloud](#) held a meeting on 4 April 2017 revolving around the hot topic of "[Data Management Services in the Cloud](#)".

The event, which was open to all research communities and cloud service providers, took as starting point the analysis in the INDIGO DataCloud project to define Data Integrity tests to be performed associated to Data Ingestion. EUDAT representative Sarah Jones took part to the meeting, which also discussed the different approaches from different cloud-related providers ([INDIGO](#), [EGI](#), EUDAT) as well as presenting case studies.
