

PROGRAMME

The EUDAT and Research Data Management Summer School programme is now available

The **EUDAT & Research Data Management Summer School**, taking place from 3 to 7 July 2017 and kindly hosted by the [Information Systems Laboratory](#) (ISL) and Institute of Computer Science (ICS) of the Foundation for Research and Technology - Hellas ([FORTH](#)), will be a unique occasion for early-career data scientists and data managers interested in furthering their careers in data management, data science and digital preservation.

The draft **programme is now available** and covers the topics of:

- The Research Data Lifecycle
- The FAIR Data Concept
- Writing a Data Management Plan
- The EUDAT Service Suite Overview
- High Performance Computing (HPC) Programming Models
- Using the EGI Federated Cloud for Data Analysis
- Linking HPC to Data Management
- Open Data and Cross-disciplinary Research
- Long Term Data Curation

With over **30 different sessions, more than 15 international data experts** will take attendees on a 5-day journey in stunning Crete discovering the world of data with exclusive in-depth insights too. By the end of the summer school you will be confident in the fundamentals of data management and data analytics, have a greater knowledge on how EUDAT services could support your work and expand your international network of colleagues and

EUDAT receives funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No. 654065.

peers in the field.
