[EUDAT Service Development: What's New?](#)

Covering both access and deposit, from informal data sharing to long-term archiving, and addressing identification, discoverability and computability of both long-tail and big data, EUDAT services aim to address the full lifecycle of research data. [Click here to check out all new service developments!](#)

[It all started with a data pilot...which then paved the way for a long-term research data management relationship](#)

In late 2015, the DataPublication@U-Porto or "EUDAT as a long-term data repository for the University of Porto" began a fruitful collaboration that led it to join EUDAT as an Associate Partner in January 2017. But what is exactly an EUDAT Associate Partner & How can you become one? [Click here to learn more](#)

[EUDAT Data Pilot ECRIN explains how EUDAT supports the European clinical research](#)

Dr Wolfgang Kuchinke, from the Coordination Centre for Clinical Trials (KKS) of the Heinrich-Heine University in Duesseldorf, is the main interface for the ECRIN - EUDAT data pilot explained us how ECRIN advances the knowledge flow of research, the competitiveness and the degree of integration of European clinical research supported by the EUDAT services. [Read the full interview](#)

[The EUDAT Semantic Working Group: Making Scientific Semantic Web Resources FAIR](#)

On 3-4 April 2017, EUDAT held a Semantic Working Group workshop as co-located event with the 9th RDA Plenary in Barcelona which discussed about how to improve the discoverability and the interoperability of multi-disciplinary scientific semantic resources. [Learn more about the EUDAT Semantic Working Group](#)

[EUDAT and Data Management Plans: learn how to manage your research data](#)

As part of the PRACE 2017 Spring School joint event with VI-SEEM, EUDAT held a workshop on 26 April called "EUDAT and Data Management Plans - Relevant Services Case Study". 25 attendees joined the event, during which they had the chance to interactively draft a Data Management Plan (DMP) for a theoretical case.
