ENTER WIKI

From 22 to 25 January 2018, Porto (Portugal) will host the
EUDAT Conference **"Putting the EOSC vision into practice":
Sharing & preserving research data across disciplines and
borders.**

Bringing together data infrastructure users and providers and policymakers from across Europe, the EUDAT Conference will:

- Discuss the progress of the European Open Science Cloud (EOSC) and the European Data Infrastructure (EDI) and the contribution of EUDAT as well as other infrastructures to these two initiatives;
- Showcase the latest trends in data infrastructure and data management solutions for research;
- Demo the solutions developed by EUDAT to address researchers and research communities' data management needs, through concrete pilots;
- Inform about the concrete opportunities offered by the newly established EUDAT Collaborative Data Infrastructure (CDI) to the service providers and research communities.

Community decision-makers and data managers, scientists and research communities, policy-makers, e-Infrastructure projects, research infrastructures and ESFRI projects are welcome to contribute to our conference.
