

## EUDAT newsletter with call for data collaboration pilots

3 Jul 2015 Helsinki - EUDAT that provides Big Data services for eScience in Europe, published the June issue of its Newsletter. It includes a call for Data Pilots. Call is open for pan-European or multi-national research communities or research infrastructures. EUDAT invites them to test, integrate and/or further develop, in close collaboration with the EUDAT consortium, one or multiple components of the EUDAT service suite through concrete data collaboration pilots.
